ADDITIONAL INFORMATION

I strongly believe that my personality and work discipline has been vastly shaped by my previous experiences in foreign affairs matters that marked the beginning of my career and provided me with greater perspectives and knowledge, while working for one of the most prestigious government institutions of Romania. It is there where I learned to better interact with people from any level, to listen, to talk, to write and to begin to understand the world as a complex and living social and political apparatus.

I love to play and spend time with my children, I like and practice all kind of sports, I like motorcycles, "Martin Eden", "Catch 22", "La vita e bella" and "Laurel and Hardy". I like to debate for the beauty of argumentation and always keep in mind that *"if I have the belief that I can do it, I shall surely acquire the capacity to do it even if I may not have it at the beginning"*.
